PROJECTS

Yoga App

Developed an app Interface on Yoga awareness using the interface Figma.

Technologies used – UI/UX.

BMI calculator website

Develop a website for health conscious people which will show your health status with the help of your height and weight.

Sona_Digital Timer website

Made a website like digital stopwatch, where you can find the current time as well as date along with, the stopwatch feature.

Go_Dice gaming website

Developed a website for fun and entertainment , to play in free time specially for kids with the help of java-script.

Shram Prayaas (SP) website

Developed a website for low wages labour to help them to find work easily and get their payment easily .

Sweet_Notes

Using java script basics , I made a working note where one can add their notes and delete and save it in history as well and can search related to the notes.
